

WANTED

LOCATIONS OF NEGLECTED SWIMMING POOLS

ALIAS: “GREEN” POOLS

DEPRESSED HOUSING MARKETS AND FORECLOSURES HAVE LED TO MANY NEGLECTED OR “GREEN” SWIMMING POOLS IN CALIFORNIA.

- ⌘ Pools that are not maintained grow algae and bacteria, leading to “green” swimming pools.
- ⌘ Mosquitoes lay their eggs in “green” pools. These eggs hatch into larvae that become adult mosquitoes.
- ⌘ Mosquitoes from “green” pools can transmit WNV once they feed on an infected bird.
- ⌘ These WNV-infected mosquitoes can bite you and infect you with WNV!

WHAT DO I DO IF I HAVE, OR SOMEONE I KNOW HAS, A “GREEN” POOL?

- ⌘ Locate the mosquito control agency in your area by visiting: www.westnile.ca.gov or calling 1-877-WNV-BIRD (1-877-968-2473).
- ⌘ Contact your local mosquito control agency about the best course of action.

WHAT CAN THE LOCAL MOSQUITO CONTROL AGENCY DO?

The mosquito control agency can do the following:

- ⌘ Work with realtor or property owner if necessary;
- ⌘ Place mosquito fish in the pool to eat the mosquito larvae;
- ⌘ Put a product in the pool that kills the larvae;
- ⌘ Help you decide how to manage the pool, if you own the pool, so no more mosquitoes are produced.
- ⌘ These actions stop mosquito production, but the pool remains green until it is properly maintained.

WHAT IF THERE IS NOT A LOCAL MOSQUITO CONTROL AGENCY IN MY AREA?

- ⌘ Contact your city government;
- ⌘ Use mosquito control slow-release products available at the local garden center or hardware store.

FOR MORE INFORMATION

- ⌘ Contact your local mosquito control program or health department ⌘
- ⌘ To locate the mosquito control program in your area visit: www.westnile.ca.gov or call 1-877-WNV-BIRD (1-877-968-2473) ⌘
